Write an ALP to read the first five characters from the file abc.txt and the first five characters from file xyz.txt. The ALP should then interleave the characters in the following order [the character no. from file 1 is in Arabic numeral and from file 2 is in Roman numeral] : 1 V 2 IV 3III 4II 5I

So if the following text is there in file abc.txt.

If you don't build your dream somebody will hire you to build theirs.

And the text in xyz.txt is

It is hard to be a woman - you must think like a man, act like a lady, look like a young girl and work like a horse.

The ALP should read the first five characters from abc.txt[***If yo***]and the first five characters from xyz.txt [**It is**] and the display the following [**Isfi ytoI**]
